Honorable Stansfield Turner
Director
Central Intelligence Agency
Washington, D. C. 20505

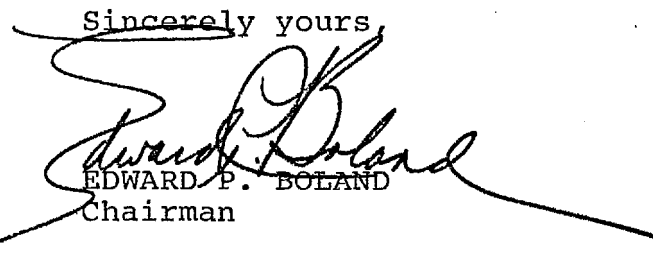

Dear Admiral Turner:

Some additional questions have surfaced as a result of the informational hearing conducted on the Department of Energy by the Program and Budget Authorization Subcommittee on January 19, 1978. These questions result in part from testimony given during the hearing and the answers DOE provided for the record.

It would be appreciated if answers to the attached questions could be provided prior to the DOE hearing scheduled for February 24, 1978.

With every good wish, I am,

Sincerely yours,

EDWARD P. BOLAND
Chairman

Enclosure

Follow-on Questions to Answers Submitted by DOE as a Result of January 19, 1978 Hearing

1. The transcript on page 20 contains the correction that instead of 400 personnel within DOE headquarters, there are approximately 230 personnel with clearances and another 200 personnel in the laboratories. In the additional insert submitted for the record, the names of approximately 230 personnel and their clearance level were furnished. Question: Would you please provide for each of those personnel their job title and where they work within the Department of Energy? Also, furnish a detailed organization chart of the Department.
2. Please provide additional detail on how the need-to-know principle is applied within DOE and how intelligence reports are routed and tracked once they are internally distributed.
